

BE PROTECTED DEFEND YOUR ASSETS

**WITHIN SECONDS, ALL YOU HAVE BUILT UP
CAN BE LOST: YOUR DATA, OPERATIONS,
AND CUSTOMER TRUST**

Gone are the days of robbing a bank—it's too risky for thieves. Today, money-hungry criminals prey on businesses whose technology lack protection. While you might be satisfied with how your business is growing, you can lose it all when your operations are crippled by a malicious attack. Successful attacks can block access to your company data, forcing you to shut down operations, demoralize your employees, and pay a hefty ransom without any guarantee of data recovery. You'll lose the trust of your customers, and more so if you handle their sensitive information. Your assets are valuable. Protect them with Techellence. We can safeguard your business against cyber threats.

ABOUT TECHELLENCE

Techellence is a premier technology solutions provider that empowers businesses to thrive with minimal or no internal IT staff. Our expert team delivers comprehensive infrastructure setup, systems management (managed services), software development, and automation, enabling your business to leverage technology as a powerful catalyst for growth. At Techellence, we are dedicated to enhancing your profitability, efficiency, and security, ensuring that technology becomes a driving force behind your success.

YOUR SOLID DEFENSE AND RECOVERY EXPERT

Your money (\$\$\$) is your assets—whether that is your proprietary data or your special way of doing things. Your business is unique because of how you operate it, using specific resources. As you grow, you and your staff will continually establish new assets. Eventually, your secret sauce can no longer remain in your personal laptop for you to command and control. Imagine a day when you and your employees turn on your computers to realize all your data is no longer accessible. What would you do? To facilitate true growth, you need proper protection, which Techellence can provide for you.

STRONG SECURITY MEASURES

Techellence provides robust technology defense for your business. We monitor incoming data, track employee activities, and analyze potential threat sources. In addition to removing spyware, adware, and viruses, we audit patches, ports, passwords, and firewalls. We also manage warranties and service contracts for your hardware devices, ensuring timely security updates and software installations. This comprehensive approach offers you maximum protection from external threats.

UP-TO-DATE PATCHING

Outdated software and unpatched computers can leave you vulnerable to cyberthreats. That's why Techellence automates the process of keeping your software and hardware updated. By doing so, we safeguard your vital systems and ensure threats are blocked from entering your network. With our proactive approach, your front door remains fortified against cyberattacks.

AUTOMATIC BACKUPS

Disasters can strike without warning. Techellence ensures your data is continuously updated to the cloud protect your vital infrastructure, providing constant access to the latest versions of your documents, files, emails, and more. We establish robust, customized processes and provide the necessary resources to keep your data safe and secure, ensuring your business remains resilient in any situation.

COMPREHENSIVE ASSESSMENTS

You can't protect your systems without understanding your current technology landscape. We conduct comprehensive assessments of your computers, network, processes, and more to identify areas for improvement. Based on our findings, we develop a customized plan for growth and enhanced security.

MEET COMPLIANCE

Protecting your business and customers data is critical to meeting compliance and avoiding fines. Techellence ensures your equipment is updated and secured, significantly reducing the risk of breaches and data compromises. We collaborate with you to develop robust operational policies that can be presented to external compliance organizations for their approval, helping you maintain regulatory compliance with confidence.

CYBERSECURITY INSURANCE

Not everyone qualifies for cybersecurity insurance, but in today's business environment, this protection is crucial. New threats and vulnerabilities emerge daily, especially with rapid software release cycles designed to meet current demands. Techellence helps you secure the best policy by first establishing a robust, insurable environment. We then collaborate with top insurance agencies to ensure you are qualified, adequately protected, and receive the best rates. You won't have to lift a finger—we handle it all for you.
