

FOSTER COLLABORATION

Consensus Building

Performing teams can get nearly anything done. Leaders develop their teams to perform and succeed together.

How Does it Work?

Nothing of significance came out of one person. Leaders make their vision come true by forming strong teams who can carry out the necessary activities. Yet, once the team is formed, it must be nurtured so that the team may collaborate well together to produce the desired result. Without proper development, less would be accomplished even when the most effective individuals come together. Leaders recognize this and seek to form strong teams from the onset and maintain them.

Impact of Lacking Collaboration

- Individuals will focus on their own strengths, generally for their own benefit.
- Great results do not occur.

Why Consensus Building?

- Your team is not performing as well as you would like.
- You want to build a high-performance team.
- You want to improve team efficiency and effectiveness.
- You are kicking off a new team and want it to run well.
- You want to encourage open, honest communication that strengthens relationships, improves productivity, and moves the team toward results.
